ALL FACTIONS INCLUDED IN PEACE PLANS

United States and Huerta. Together With Carranza Representing the Rebel Element. Will be Considered by Envoys Now Attempting to Bring About Peace

Washington, April 29.—The scope of mediation plans for the settlement of the Mexican crisis was suddenly broadened tonight so as to include the entire range of Mexican affairs—not alone the critical issue between the United States and the Huerta regime, but also the conflict between the elements of northern and southern Mexico, which have rent the republic for many months.

This signal enlargement of the mediation program followed the receipt late in the day of a formal acceptance by General Carranza, chief of the constitutionalist forces, of the principle of mediation, as proposed by the ambassador from Brazil and the minister from Argentina and Chile.

Already the United States and General Huerta had formally accepted the good offices of these South American envoys, and now as a further step General Carranza has been brought into deliberations, so as to draw every element and faction within the range of any settlement which may be attained.

Earlier in the day the mediators made another decisive move in asking the United States and General Huerta to agree to an armistice by which all aggressive military movements would be suspended pending the outcome of the negotiations. The mediators confidently expect both sides to accept the armistice proposal.

The separate proposal for an

armistice as between Huerta and Carranza will also be made, and with its acceptance all of the warring elements throughout Mexico, as well as the American forces, would maintain a military status quo. The American government in its formal reply to the armistice proposal will expressly stipulate that any untoward act toward Americans will be regarded as an infraction of the armistice.

The mayor and council are carefully working out a practical and economical method of handling the city's business and in order to do so must know the exact condition of its finances.

Five hundred plants consisting of twelve varieties, have been ordered and will be on sale from May 15 to June 15. CASSVILLE NEWS

The depot is receiving some improvements.

At a meeting of the school board Wednesday night of last week Prof. W. M. Dyer was re-elected superintendent of the Cassville school for the coming year.

The school board in session Wednesday night of last week selected Felt & Co., an architect firm of Kansas City, to prepare plans for the new school building. A representative of the firm is expected in Cassville this week to work out all details with the school board.

The engine and a freight car of the Cassville & Western railroad was derailed by two mules Monday near the Hodge crossing. One of the mules was killed and the other badly hurt. They belonged to Walter Weston. But little damage was done to the engine. The track is expected to be cleared today, Wednesday.

KILLED BY DYNAMITE

County Coroner F. J. Bigham was called to Racine yesterday evening to view the mutilated remains of Julius Parker at his home place about one mile west of Racine. It would seem that Mr. Parker was killed by a dynamite explosion. His lower limbs had been entirely severed from the body, and the lower part of the trunk terribly mutilated. The upper part of the body did not show any particular signs of mutilation. The tragedy occurred about a hundred yards from his home.

The coroner's jury after viewing the body and hearing the testimony of a number of persons rendered a verdict to the effect that deceased came to his death by an explosion of dynamite and in all probability by his own hand.

Mr. Parker was 72 years of age and leaves a widow, two boys and three girls.—Neosho Democrat.
